1. The world now knows without any question and in great detail the nature and size of the buildup of Soviet offensive missile capability in Cuba. There can be no valid question in anyone's ~~xx~~ mind on this point.

2. The action of the Soviet Union in using Cuban soil as sites for offensive nuclear missiles capable of striking most of the Western Hemisphere has placed the future of the Castro regime and the well-being of the Cuban people in great jeopardy.

3. The countries of the Inter-American System have unanimously called for their removal and approved and are participating in the measures being taken to eliminate this Soviet threat to all of them.

4. The Soviet Union is turning around its cargo ships in face of US quarantine which the countries of hemisphere have authorized. Not only is the Soviet Union failing to support Cuba on this matter, but numerous feelers have been put out by high Soviet officials to allied governments for exchanges of their position in Cuba for concessions by the NATO countries in other parts of the world. Thus you are not only being used for purposes of no interest to any Cuban, but deserted and threatened by betrayal.

5. It is also well known that work is proceeding rapidly to complete and make operational the offensive nuclear missile installations and to assemble the IL-28 bombers. The threatened

countries clearly cannot sit still while the threat against them is being increased in this fashion. ~~KNOWX~~ Further steps will have to be taken against Cuba and very soon.

6. Castro might recall that President Kennedy has said publicly that only two issues were nonnegotiable between Castro and the US -- the military-political ties to the USSR and the aggressive attitude toward the internal affairs of other Latin American countries. This view will be shared by other members of the Inter-American System. Of course this now means giving up the offensive nuclear capability being established in Cuba and sending home Soviet military personnel, on which help can certainly be given if needed. From such actions many changes in the relations between Cuba and the OAS countries, including the US, could flow.

7. Time is very short for Cuba and for Castro to decide whether to devote his great leadership abilities to the service of his Cuban peoples or to serving as a Soviet pawn in their desperately risky struggle for world domination by force and threat of force.

8. If Castro tries to rationalize the presence of these missiles as due to Cuban fear of a US invasion, Ambassador Batian should reply that he is confident that the OAS would not accept an invasion of Cuba once the missiles were removed and that the US would not risk upsetting hemispheric solidarity by invading a Cuba clearly committed to a peaceful course.

MEMORANDUM FOR THE HONORABLE McGEORGE BUNDY

SUBJECT: Proposed Message to Castro.

Attached is a revised draft of the proposed message to Castro which the President said he desired to review before it was transmitted. While the message is still in the form of a telegram to Rio, there are problems of transmittal to Habana on which we are working. Therefore, there may have to be some change in channels.
